Scenes from Cassa's launch party

Architect Enrique Norten, developer Solly Assa and other luminaries turned out this week for the launch party for Cassa, a condo and boutique hotel at 70 West 45th Street. Architect Nancy Ruddy, co-principal of Cetra/Ruddy Architects and a designer of the project with Norten's firm, Ten Arquitectos, told *The Real Deal* in May that the building would be constructed economically. The project will include 57 residential units and 166 hotel rooms. Below are some photos from the party, held at 1140 Avenue of the Americas. Cassa's condominium units are now in pre-sales. *TRD*
